Greetings-

The link to the story on KMXT Radio, Kodiak, that ran this morning:

Nice to hear that Jay Barrett from the radio station got Senator Begich on the phone and that Sen Begich will be taking a further look into this situation.

Also, there is going to be another story tomorrow. I presume from the context the next segment will go over the crew statements related to the wiring and flawed testing process and paperwork that the US Coast Guard, GSA and EPA have relied on to allow export of STORIS to Mexico.
